

: Friday Maths Challenge1

We have been learning and practising our knowledge of division for the past 4 days. Today, for your home learning activity, can you complete the division word problems? You might use, pieces of pasta, Lego or pennies to represent the objects in the pictures.

1. Divide the sweets into five bags.

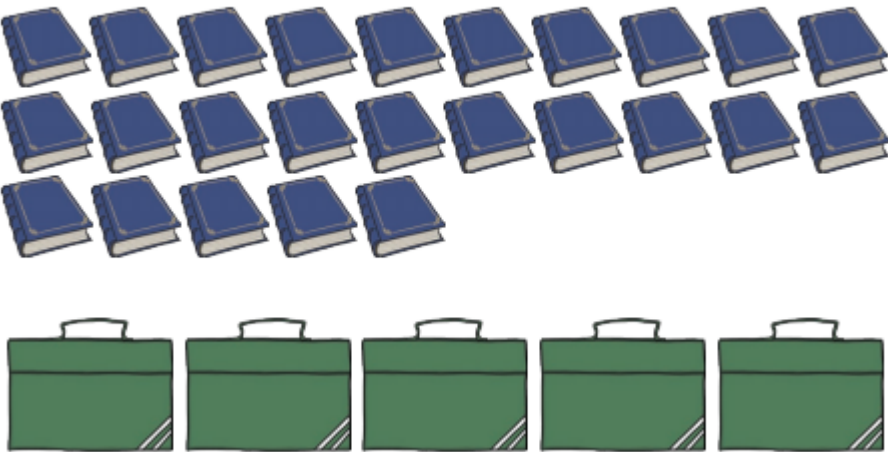

2. Divide the sandwiches into four plates.

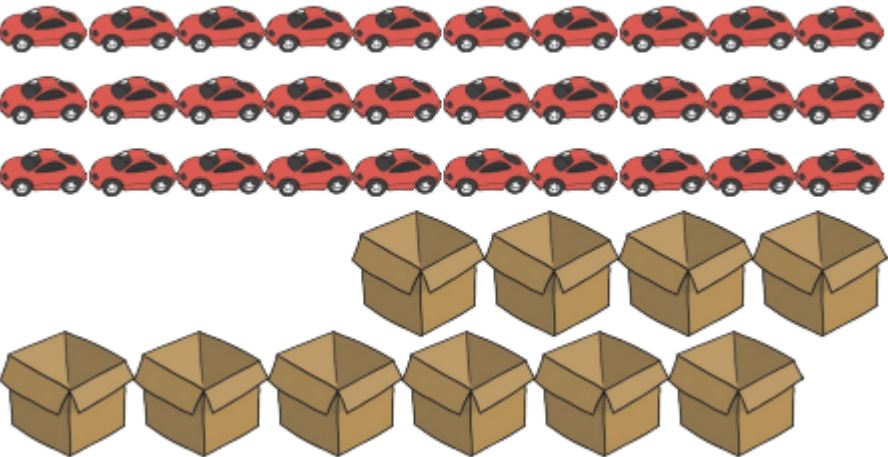

3. Divide the toothbrushes into three glasses.

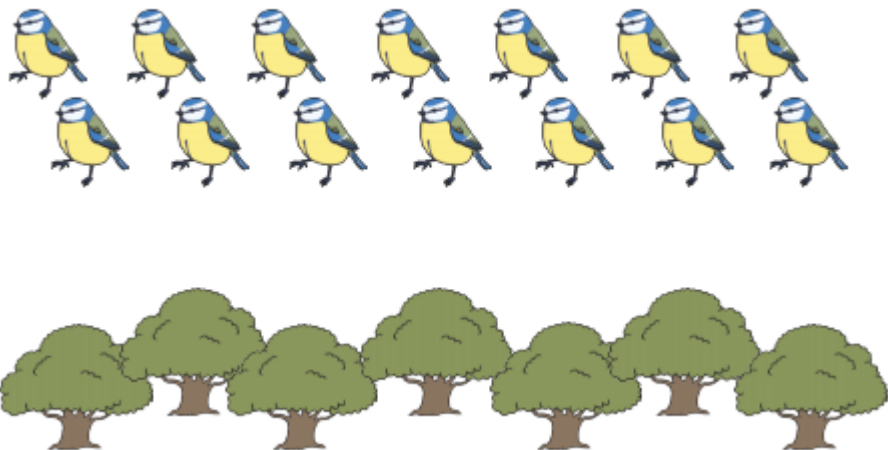

4. Divide the books into five bags.

5. Divide the toys into ten boxes.

6. Divide the birds into seven trees.

Extra Challenge

Can you use the pictures below to write another maths problem for someone at home to solve? Remember the sweets need to be shared equally.

[illegible]
