CT

- Asia is the largest continent in the world, covering about 30% of the land on earth
- 4 billion people live in Asia. You can think about this next to the fact that 741 million people live in Europe!
- China is in Asia and has the largest population, as well as being the largest country.
- Largest City: Tokyo in Japan. With more than 38 million inhabitants Tokyo is the largest city and has the largest metropolitan area.
- There are 48 countries in Asia

1

- The continent of Asia is so large and diverse that it is often divided into six sub-regions. This means that different parts of Asia belong to a separately named area. This would help with giving weather forecasts, having governments and health services.

2

- Asia is rich in diverse races, cultures, and languages.

3

- Many of the world's major religions came out of Asia including Christianity, Judaism, Islam, Hinduism, and Buddhism.

4

- Countries such as Russia, China, Japan and India produce products and services that are used by every nation in the world.

5

- The continent of Asia has 50 flags:
